

Recyclable PET containers

The background of the advertisement shows a professional kitchen setting. In the foreground and middle ground, there are several clear PET containers filled with sandwiches. The sandwiches are cut into halves and filled with layers of white bread, red tomato, green lettuce, yellow cheese, and pink meat. The containers are arranged on a dark surface, and the background is slightly blurred, showing stainless steel kitchen equipment like a kettle and a coffee machine.

Katermaster's range of hinged lid food containers are environmentally friendly, strong, resistant to fats and oil yet still has excellent clarity. What better way to protect and present your food.

Katermaster PET Hinged Lid Containers

- Katermaster's range of hinged lid food containers are environmentally friendly, strong, resistant to fats and oil yet still has excellent clarity. What better way to protect and present your food
- High clarity for enhanced food presentation
- Variety of sizes to suit varied foods
- Ribbed construction for greater strength
- Recyclable, non-toxic, stackable, hinged lid
- PET is Australia's most environmentally friendly plastic. It is disposable via local council, household and community kerb-side recycling programs. This recyclable plastic is easily reconstituted into a variety of practical applications, including furniture and clothing
