Infection Control | Saniwaste

**DISPOSAL UNIT**

For more information please contact a Bunzl representative.

Saniwaste Disposable Units

The environmentally friendly, sanitary waste disposal system is fast, efficient and hygienic.

- The SaniWaste disposal unit requires no hot water or heating to perform its cycle.
- Nursing staff are freed from the unpleasant cleaning procedures of conventional pans giving them more time to care for patients.

Sanitary Disposable System

- Eliminates growing bacteria
- Reduces risk of cross infection due to single use receptacles
- Reduces cleaning procedures of conventional pans giving them more time to care for patients
- Saves on energy and water
- Product is warm on skin unlike chill of plastic and stainless steel
- Made from recycled paper, biodegradable and are 100% Australian Made
