

## ***‘Putting sugarcane waste to good use’***

## Sugarcane Washroom Range

Manufactured to include sugarcane pulp (bagasse). Bagasse is the fibrous residue left over after the sugarcane has been crushed and the sugar extracted. The finished product is soft and has strong water absorbency; and more importantly: 100% biodegradable!

Sugarcane bagasse compares favourably with common "tree-made" paper. Made from the residues of an annual agricultural crop by-product, it helps to reduce the commercialisation of our forests.

- Sugarcane products are soft and have strong water absorbency. No added fragrance.
- Requires less bleaching chemicals than wood pulp.
- Using agriculture crops reduces deforestation.

## Sugarcane Toilet Tissue

Code	Description	Sheets	UOM/Qty	Image
PS1001G	Sugarcane 2 Ply	400	Ct/48	(A)

## Sugarcane Jumbo Toilet Tissue

Code	Description	Size (mm)	UOM/Qty	Image

**100% RECYCLED  
POST CONSUMER WASTE**

## Pristine Recycled Washroom Range

The main material is post consumer waste paper. Without compromising its quality, the recycled range helps to care for the environment by reducing consumption of raw material.

### Recycled Toilet Tissue Rolls

Code	Description	Sheets	UOM/Qty	Image
PS1001R	Recycled 2 Ply	400	Ct/48	(A)
